

## DRY MOUNT for Sumi-e Art

### Supplies:

Finished Art piece, glue sheet cut exact same size as art piece, iron with steam function, backing board cut about 1" larger than art (Matt board is good), denim fabric (enough to have 4 layers of fabric for the ironing area), sheet of clean paper larger than art, spray bottle with water

### Prep:

Spray art with very light amount of water on face up side (Set aside few minutes)

Set iron to wool/cotton setting (slight steam)

Lay out denim 4 layers thick on flat firm surface large enough to lay art

And have hot iron near this surface

Cut glue sheet exactly same size as art piece

Cut backing board 1" larger than art piece

### Assemble glue sheet:

Place cut glue sheet with glue face up on denim surface

Place art face up on glue sheet matching edges of art with glue sheet edges

(Caution - check to be sure art piece is face up)

Cover with sheet of clean paper

Iron slowly from center going out to edges beginning with center to top section

### Assemble to backing:

Remove glue sheet backing from art piece (little wrinkles ok)

Place backing Matt board on denim smooth side up

Place art face up in center of matt board

Cover with clean sheet paper

Iron slowly from center out
